THE SOUTHERN MERCHANTS ARRIVE AT CINCINNATI.

Rhode Island Republican State Convention---Serious Accident---Fire at Lynchburg.

THE SOUTHERN MERCHANTS ARRIVE.

CINCINNATI, March 18.—Four trains carrying 1500 Southern merchants and leading business men arrived last night from Chattanooga over the Cincinnati Southern Railroad to celebrate the opening of the new line. A hearty welcome was given to the visitors who were escorted to the hotels amid the enthusiastic demonstrations of ringing bells and the display of fire works, etc. The city was profusely decorated and brilliantly illuminated. A grand banquet will be given at music hall to-night.

LATER.

The last train of the Southern excursionists did not reach the city until 4 o'clock this morning, owing to the delay caused by hot boxes on new cars. To-day the visitors are being shown about the city by a committee of 400 citizens. A large number visited the Chamber of Commerce, which was beautifully decorated with flags, flowers and welcoming mottoes in honor of the Southern guests. At the close of business hours President Brown formally welcomed the visitors and introduced Mayor B. E. Crane, President of the Atlanta Board of Trade, who read the poem commemorative of the event written by Rev. Mr. Martin, of Atlanta.

Governor Marks, of Tennessee, followed with humorous reference to his attempt during the war, along with some 75,000 other southerners, to reach Cincinnati, and saying that he came to-day with few of his neighbors, to render an apology for failing to come sooner, and that he was glad to say that in the warmth of welcome he and his friends had received, they forgot the disappointment of their failure in the past.

Governor Colquitt, of Georgia, followed and said that here and now was the fitting occasion when the dead past should be buried forever, and in behalf of those who come with him as well as of those he left behind, he gladly extended the right hand of friendship.

E. A. James, of Chattanooga, made a few brief remarks, in the course of which, he warned Cincinnati to meet and overcome adversaries seeking to nullify the value of its costly roads. There is a parade of the police and exhibition of the fire department this afternoon.

SERIOUS ACCIDENT.

NEW YORK, March 18.—A serious accident occurred on the Lebanon Valley Railroad last night, at Annville, Pa. One train was standing on a switch waiting for the night Express to pass, and a number of its passengers had alighted and were walking up and down the main track. The night was dark and the approach of the night Express was not noticed until it dashed into a group of careless passengers at a speed of forty miles an hour. Three men were killed and a number badly injured.

RHODE ISLAND REPUBLICAN STATE CONVENTION.

PROVIDENCE, R. I., March 18.—The Republican State Convention met here at noon to-day and nominated Alfred H. Littlefield, of Lincoln, for Governor, and Henry H. Fay, of Newport, for Lieutenant-Governor. Eight delegates were then elected to the National Convention at Chicago. They are understood to be unanimous for James G. Blaine.

A BURGLAR SHOT.

MEMPHIS, March 18.—Joe Castello, a young man from Bowling Green, Ky., broke into the House of Wm. Shuttleworth, a painter, residing in Irving block at 2 o'clock this morning and was shot by Shuttleworth through the breast. He will probably die.

FIRE IN LYNCHBURG.

NEW YORK, March 18.—A Lynchburg, Virginia, special says: Three large tobacco factories were destroyed by fire here yesterday. The fire began in the wooden factory of Wood & Bro., and finally extended to the brick factories of Flood & Smith and Hancock & Morman, both of which were destroyed. The total loss is estimated at from $60,000 to $100,000. Insurance $55,000.

The Teacher Taught.

Robesonian.

The *Star* complains that the papers which published Jarvis', Saunders' and Dr Worth's articles, did not publish those of Col. D. K. McRae and Major Hearne. If our memory serves us right, the *Star* did not publish Jarvis' and Worth's letters, and was tardy in publishing Saunders', and if that is so, there is a passage somewhere in the New Testament in regard to a mote and a beam, which our sprightly contemporary would do well to *read* and *heed*. It was impossible for the weeklies to publish all that was written in regard to the railroad question, but this was not the case in regard to the dailies. And now, as the *Robesonian* is probably one of the papers to which the *Star* refers, we can only say that upon our contemporary's defining its position, we are no more in favor of selling the road than that paper. We have never yet advocated the sale to "the said W. J. Best and his associates without dotting an i or crossing a t," but we are in favor of selling to Best or any other man, who will give what it is worth, and who can and will provide indemnity for the present and security for the future. We want the road disposed of; we have so stated from the first, and will coutinue to advocate it till convinced of our error.

Don't Give Up.

What if you have tried different "put up" medicines in vain. Have you not been equally disappointed in some physicians? Do not consider your case incurable until you have made a thorough trial of Dr. Pierce's Family Medicines. They are chemically pure, of uniform strength, and have come into general use by reason of superior merit. In cases of general and nervous debility, consumption, bronchitis, dyspepsia, liver complaint, scrofulous bunches, ulcers and eruptions, the Golden Medical Discovery is a speedy and positive cure; while thousands of women, who had for years been bed-ridden, have, by the use of Dr. Pierce's Favorite Prescription, been restored to perfect health. The introduction of these two remedies has revolutionized the treatment of chronic diseases. Patients are no longer depleted and salivated, as the tonic and alterative properties of the Discovery long since demonstrated a better way. Ladies need no longer submit to the use of the caustic and knife, as the Favorite Prescription is guaranteed to cure the diseases and weaknesses peculiar to women. Mrs. Samuel M. Kemper, of Gallandet, Ind., writes, "Your Favorite Prescription and Pleasant Purgative Pellets have saved my life."

GRANVILLE.

WILTON, March 17.—The weather is cool, with a land of mud and roads of mire, while old Sol is showing himself for the first time in fifteen days.

Cereals are looking much better. Jos. McGhee has wheat shoulder high.

Mr. Eugene Morris and Miss Belle Harris were married last Thursday. Mr. Morris' residence is connected with his father's by a telephone; so young Mrs. Morris can hourly receive that mother-in-law advice that young housekeepers generally so much need and appreciate.

To-day, at 11 a. m., Mr. J. T. Garner, of Kittrell's; and Miss Emma Fuller, of Brassfields township, were married.

The fruit tree agent has finished up his canvass through this section, and found out that Russian peaches don't sell here.

Negroes are beginning to be much interested about whom they shall vote for President, and that talking book agent is here with Fowler's "Sexual Science," which he says all darkies should read. This bids fair to be a year of it.

Henry Merritt has become perfectly bald-headed for three years in succession, and has succeeded every time in restoring his hair by using axle grease. He is fast becoming bald again, and should his favorite application again succeed, it may be set down as a wonderful hair producing anguent. No young gent need be without the much coveted mustache and goatee. Use axle grease, boys, to lubricate, irrigate and stimulate the sebaceous follicles.

There will be a temperance pic-nic, with addresses, near Knapp of Reeds next Friday. A good time is expected.

The Beaver Dam section is somewhat depressed just now over the fall in the price of fine flue cured tobacco, and the ultimate prospect of its going into disuse. People are beginning to find out that this tobacco is worthless except for its looks. J. W. W.

HARNETT.

HARRINGTON, March 17.—The weather has been one continuous drip, drip, raining every day since last Saturday week, in consequence of which the earth is perfectly saturated with water and heavy and continuous freshets in all the water courses. To-day, however, it is fair, windy and rather cool. No farm work has been done during the past week, which will be felt by farmers, as every day should be made to count in the preparation for planting.

Wagons are going every day to the different stations on the railroads and are returning laden with guano. The indications are that more will be used this year than last. Farmers, take care, less you be gulled by the syren song of the cotton boom.

We could not look up many items of news this week on account of the rain.

James H. Withers, Jr., has returned to his native place after an absence of two years in Tennessee. He seems delighted to get back home once more to stay permanently. He is going at once to begin the study of medicine.

The continuous rain for the past twelve days has been a bonanza for the timber men. Timber from this point on Upper Little river was never before carried to Wilmington on one freshet. Twenty-five rafts went out of this river aggregating nearly if not quite 1,000,000 feet, and at the present high prices is bound to bring a large amount of money into the county. The river is nearly clear of timber now, not more than five or six more rafts to go out this season.

JOHNNIE REB.

FRANKLIN.

FRANKLINTON, March 17.—At last the weather has cleared up with a cool north wind.

Crops are looking well.

Trade has been better this week than for some time. Farmers couldn't work, consequently they came to town and traded.

There is a right smart of courting, billing and cooing going on, and the report of a marriage may be looked for at any moment.

Last night there was quite a crowd feasted on confections at the public school house near Pope's Chapel. The children attending the public school, of which Miss Bettie Cotes is governess, gave the party. It was quite an enjoyable time. After Mr. Ben Cooke had regaled the party with his Terpsichorean qualities by singing "A little more cider for Dinah," etc., the gentlemen from Pea Ridge gave the *coup de main*, with the Ridge party whoop!

Last week Mr. John Bailey lost his smoke house, containing 2,000 pounds of bacon, together with lard and many other things, by fire. Cause, smoking meat.

Mr. J. P. Winston, of Youngsville, broke his clavicle for the seventh time the other day. Unlucky man in that particular.

Mr. Charles Fen called on a lady the other night, and had been in her company but a few moments when he heard the footsteps of her acknowledged suitor. Charles leaped out *sans ceremonie* and made tracks lively. Result: Half sole lost from pants in clearing the enclosure, and the balance of pants with the major portion of his coat left in a huge brier thicket! Poor fellow. He has our "sympathies."

Mr. Thomas Blackley's wife says that he has changed his residence so often of late, that whenever a wagon is driven into the yard that the chickens all run up and fall on their backs and hold up their feet to have them tied. They think they have got to move again. J. W. W.

Chatham *Record*. Near Kivett's Mill, in Harnett county, a hawk and an eagle got into a fight, and falling to the ground were so intent upon killing each other that a negro took a stick and killed them both.

The Richmond *Dispatch* contains the following, which will be news to most of us: "Washington was born on the 11th of February, 1732. The 22d became his nominal birth-day long afterwards."

The Charlotte *Observer* says: It is believed that the Democrats composing the committee are in favor of the sale, with the exception of Messrs. Dortch and Richardson. It was thought the objections of Mr. Dortch would be removed by the new "Best Bill," but at a meeting of the committee he took strong grounds against it.

Hon. Isaac Hayne, of Charlotte, died recently, aged seventy. He was Attorney-General of South Carolina before the war, and a grand-son of Isaac Hayne, who was executed by the British during their occupation of Charleston.

A monument to the late Rev. John Kerr, and his son, the late Hon. John Kerr, was erected at Yanceyville on the 6th ult. J. A. Long, Esq., on behalf of the legal fraternity, delivered an address on the life and character of Judge Kerr.

The class of 1880 at the University had a "tree planting" on March 8th. Mrs. Spencer and Mr. W. A. Betts furnished the songs, and Mr. W. B. Slade, of Georgia, was to deliver the oration.

LATE STATE NOTES.

Wilmington gave $400 to Dr. Bobbitt, Agent for Trinity College.

There is money in poetry. Tennyson is worth a million!

Rev. Dr. M. D. Hoge arrived in Rome on the 24th ult., en route for Palestine.

More emigrants are leaving Greensboro for the West.—*Patriot*.

The burnt district of Roxboro is to be rebuilt with brick.

This country is now making more than one third of all the paper in the world.

C. L. Wilson proposes to open a school in Oxford for preparing teachers of vocal music. Mr. Wilson is a thorough musician, and we wish him success.

The number of visiting merchants to the city of Charlotte during the past two weeks, is estimated at eight or nine hundred.

Mr. Henry W. Longfellow has been presented with an uniquely-bound volume containing the autographs of nearly all the 800 children who contributed, a year ago, to the cost of the chair made from the wood of the famous chestnut tree.

The Lenoir *Topic* says there has not been a prisoner in Caldwell county jail in four months, and that the authorities have rented the jail out as a dwelling. The same good state of affairs is reported from Watauga.

W. S. Edmond, came into New Berne, says the *Nut Shell*, on Wednesday with twenty-seven wild ducks and two wild geese. The fruit of a short hunt.

The Alexandria *Gazette* announces the sale by Jno. S. Barbour as commissioners, under a decree of the Circuit Court of Alexandria, on the 13th day of May next in that city, of the Washington City Virginia Midland and Great Southern Railroad. The terms are announced as cash.

The *Messenger* publishes the analysis of different wells in Goldsboro made by Dr. Ledoux. The exhibit is by no means a pleasant one for the denizens of that thriving town to contemplate, and those who have not the advantage of cisterns will probably confine themselves to milk and beer as a steady beverage.

Rev. Dr. Deemis had quite an adventure while in England. He was able to rescue from death the little son of a gentleman, Mr. Hoge, whose kind hospitalities he was enjoying. The boy had caught fire, when his screams were heard. Dr. Deems was sitting with the family, the host being absent. He rushed to the kitchen and found the boy enveloped in the flames. With rare presence of mind he took in the situation. He pulled off his coat, in which were his letters of credit, passes, etc., and throwing it around the lad saved it from a horriole death.—Wilmington *Star*.

The Greensboro *Patriot* says of Gov. Jarvis' message: "That it is an able document will become apparent to all those who read it, and that its conclusions from a sound and practical common sense view of the situation, will commend themselves to the tax-payers of the State admits of but little doubt. It would be a work of supererogation on our part to review the whole of the message, for it speaks better for itself than any one can speak for it." The editor pays a glowing tribute to Gov. Jarvis.

The Elizabeth City *Economist*, after giving the features of the bill to sell the Western North Carolina Railroad, says: "We have examined the bill critically and can see but one defect in it. There should be an amendment requiring that the whole road, and every part of it from Salisbury to Asheville, with the two branches to Paint Rock and to Duck Town, should not only be completed within the time specified, but be kept in repair and in good order, and in operation after its completion. With this exception, we can see in the speedy adoption of the resolution nothing but benefit to North Carolina.

Progress.

Correspondence of the News.

OXFORD, March 16.—According to the laws of North Carolina, which licensing tribunals should regard, retailers of spirituous liquors are required to prove by at "least two witnesses of known respectability," that they men of "good moral character," before they can grant them license to retail. And when county commissioners, or any other licensing body, grant to men of known corrupt and immoral habits license to disturb the quietude of families and ruin the morals of Christian parents' children, by enticing them into habits of dissipation, and gobbling up their money at the card-table, they are performing a work for which good citizens of the country will hardly thank them. The law makes licensing tribunals in some measure the custodians of the morals of the community in which they live. And when they knowingly depart from their official duty by putting men of known corrupt and degrading habits in positions which their moral obligation to society, and the laws of the land say they shall see are filled by men of "good moral character," thinking men, when boys come home intoxicated on Sunday night, will hardly think they are coming up to the full measure of their official duty.

An Irishman once was telling his brother son of Erin that on one occasion he made "rapid progress backward." Some obstacle was in the way of his forward movement, and he reluctantly had to be reconciled to the course he took. When licensing tribunals see no necessity for requiring applicants to come up to the requirements of the law, and put upon society a set of characters oblivious to the moral advancement and happiness of others around them, the morals of the community in which they operate will be very apt to make rapid progress in the wrong direction. Licensing tribunals are not guiltless of the blood of the slain when they thoughtlessly, or designedly, place the sword of moral death in the hands of men they know are corrupt enough to wield it effectually in the moral downfall and ruin of all that come under their deadly influence. Revenue that is raised in the moral degradation of the youth of the country, and on the sufferings of innocent and abused wives, costs the church and the country too much. What wisdom is there in reducing a country to moral rottenness in order to produce wholesome and healthy action and progress? A shepherd would show just as much wiscon in trying to promote the harmony and growth of his flock by turning loose a ravenous wolf in their midst, to satiate his thirst for blood. Tell one not of the Christian consistency of a man that thinks he is performing his official duty by turning loose upon the community in which he lives a set of vile desecrators of the Sabbath, taking delight in the moral downfall of the ruined young men they send home from their cesspools of ruin to excite painful anxieties in the breast of their afflicted mothers for their future safety.

OXFORD.

KELLOGG AND HILL.

How the Carpet-bagger Tried to Ensnare the Georgia Senator.

The Washington correspondent of the *Sun* gives the following story, which has been current at the capital for several days:

Senator Hill, of Georgia, is preparing the report of the investigation of the Senate Committee on Privileges and Elections in the Kellogg-Spofford case. The report will recommend the unseating of Kellogg, and the swearing in of Spofford as Senator in Kellogg's place. The report prepared by Senator Hill will declare that the investigation has proved that Kellogg resorted to fraud to secure his election, and that he bribed a fraudulently elected Legislature to aeturn him to the United States Senate. It is believed that Kellogg has endeavored to intimidate Senator Hill, and it is now suspected that the Senator from Louisiana was one of the authors of the recent attempt made by a woman named Jessie Raymond to blacken Mr. Hill's personal character.

Several weeks ago a Senate doorkeeper came to Mr. Hill while on the floor of the Senate and said that the driver of a carriage had requested him (the door-keeper) to say to Mr. Hill that Mrs. Kellogg was in a carriage on the driveway under the Senate Chamber steps, and would like to see him. Mr. Hill told the door-keeper that there must be some mistake. He did not know Mrs. Kellogg, and it was probable that a mistake had been made. The door-keeper was positive that Senator Hill, of Georgia, was the person Mrs. Kellogg wanted to see. Mr. Hill then called another door-keeper and directed him to go down to the carriage and tell the lady that he would see her in the Marble Room. To Mr. Hill's intense astonishment the door-keeper led into the Marble Room a person whom he recognized as a divorced woman formerly from Georgia, who is reputed to be the friend of the Republican Senator of Louisiana. He held a short consultation with the woman, who seemed pleased at the success of the trick to become acquainted with the Senator from Georgia. She told him that very bad stories affecting his character were in circulation, and insisted that he should visit her at her rooms, where she would give him full particulars. He promised to pay the visit, but, of course, has never done so. This circumstance, occurring just before Miss Raymond made her scandalous charges, naturally has created suspicions in Mr. Hill's mind unfavorable to Mr. Kellogg.

A MODERN SAMSON.

His Name is Angelo Cardela, and He Strikes 500 Pounds.

The strongest man in the world at the present time, so far as we are able to learn, now lives in Reno, Washoe county, Nev. A reporter recently witnessed the astonishing feats of the remarkable man, and was fully satisfied by what he saw that he is really all that is claimed for him. His name is Angelo Cardela, an Italian, aged 38 years; stature, five feet ten inches; weight, 190 lbs; occupation, laborer; habits, temperate, though he has no scruples against the moderate use of malt liquors and the light wines of his country. In personal appearance he is not remarkable; merely a good-natured looking son of Italia, with a broad, heavy face, a noble development of chest and shoulders, and large, fleshy hands. His strength was born with him, for he has had no athletic training. When "stripped to the buff," however, a marked peculiarity in his spinal column is at once apparent. His backbone is, we might say, double-jointed, with the vertebral articulations usually large and prominent. Though he is not a man of unusual size, his spinal column is double the ordinary width, and his other bones and joints seem made on a similar large and generous scale. After some solicitation, he finally consented to favor the reporter with an exhibition of strength, which proved to be such an astonishing exhibition of lifting power as scarcely to be believed. The reporter, whose weight is 150 pounds, stood with one foot on the floor, and arms outstretching, his hands being lightly grasped by two friend, one on each side, to preserve the balance of his body. This slight assistance, however, had no tendency to raise his body, being merely to keep him from topping over. Cardela then stooped down, and placed the third finger of his right hand under the hollow of the reporter's foot, upon which he was balancing, and, with no perceptible effort, raised the reporter to a height of four feet, and deposited him, standing, on a table near at hand. This feat he repeated, and then grasped the reporter's ankles with both hands, raised him above his head, and gently lowered him to the table in a sitting posture. Cardela had a pipe in his mouth while lifting, and continued smoking, as much as to say: "Per Baccho, 'tis nothing; a way we have in our country!" On a former occasion, he raised Mr. Lawson, a gentleman connected with the editorial staff of the Reno *Gazette*, in a similar way, with one finger, carried him across a room and left him standing on a table. He has also lifted by the same plan, using only his third finger (which seems to be his most reliable one), several Reno heavy weights, one weighing over 200 pounds. He can strike a blow with his fist with a power of 500 pounds, measured on a register. It is said that two Irishmen, near Verdi, started in to whip him one night, but concluded to give up the contract, as he grasped one in each hand and beat them together until the life was nearly hammered out of them. Many other tales are told of his extraordinary strength, and there can be no doubt that, in his particular specialty, he is unrivalled, and, indeed, a *lusus naturæ*, when the peculiarities of his physical "make up" and his almost limitless power are considered. He states that his father could strike a blow equal in power to 1000 pounds; so that his strength seems a direct inheritance. Cardela has not much education and an imperfect knowledge of English. He dislikes to show his strength, and fails to realize his own value. If he were to give public exhibitions of his wonderful powers, he would doubtless be recognized and acknowledged to be the most powerful man in the world in certain lines of strength.

THE SALVATION ARMY.

LATEST ACQUISITION TO THEIR ARMY.

The Movement was Organized in an Old Chair Factory with Only Three Members.

Philadelphia Record.

About five months since the Shirley family, the pioneers in America of the great English "salvation army," first opened the doors of the old chair factory at Sixth and Oxford streets, and invited the sinful of that neighborhood to come in. From the outset the meetings were thronged, while now standing room only can be obtained with difficulty. The success of the movement in this city has been such that from the picket guard of three, consisting of Mr. and Mrs. Shirley and their daughter, the army now comprises over three hundred active, able-bodied soldiers of both sexes, and is being constantly increased by the enlistment of new convert volunteers. Not long since it was found that the old chair factory was not big enough to hold all those who came, and another meeting house, fully as humble as the original headquarters, was opened in a stable on the corner of Forty-first and Market streets, where Miss Shirley now holds forth nightly to immense gatherings.

Over one thousand persons filled the rickety old chair factory last evening to see the latest acquisitions to the commissioned officers of the army, who arrived in New York yesterday by the steamer Australia from London, where the organization is in perfect and successful working order. The missionary band consisted of Sisters Westbrook, Morrison, Pearson, Coleman, Evans, Price and Shaw, the latter being a Captain and the others Lieutenants, and George Railton, who is a "Commissioner" of the Army, with power to give the title of Captain and Lieutenants to the leading workers in America.

The party were met at the steamer by Mr. Shirley, and, after having received his commission as Captain, he brought two of the lasses, Sisters Price and Evans, with him to this city, while the others remain in New York, and will commence at once organizing the Salvation Army there.

The two "halleiujah females" were seated on the platform among the faithful, dressed in plainly-cut suits of dark blue, trimmed with yellow braid, which is the regulation suit, and around the crown of their plain black Derby hats a broad red silk band was fastened, with the words, "Salvation Army," in gold letters upon it. This will be the badge of every member of this society, and will be worn in their nightly and Sunday marches through the streets and during the services. Next Wednesday evening the "Commissioner" will formally present the Philadelphia pioneers with a salvation flag, which is to be carried on every occasion. In one corner will be the American flag, a border in blue encircling the entire banner, and in the centre will be a bright yellow sun, with the words "Blood and Fire" inscribed upon it. Efforts are already being made to engage a hall large enough to hold the throng expected on that occasion.

In 1865 the Rev. William Booth, a Methodist Episcopal clergyman of England, being impressed by the great number of persons of London who never attend church, organized a system of outdoor meetings. As he and the co-laborers whom he gathered about him disliked the stereotyped terms applied to similar missionary workers, they adopted the title "The Salvation Army." The army now embraces 122 corps, directed by 195 officers. Meetings are held every week in 188 theatres, dance-halls, warehouses, etc., in London, and the aggregate number of these meetings annually is 45,000. It is estimated that 60,000 persons attend these meetings each week, and 74,000 the Sunday night services, while the weekly attendance at the open air meetings is put down at 2,000,000.

DAILY NEWS

FRIDAY MARCH 19 1880.

GEO. C JORDAN. Editor and Propr

WAYNE AND WAYNESVILLE.

When a gentleman of the ability and reputation of the Senator from Wayne, who, on account of his position as a Director, was at an early period in the negotiation for the purchase of the railroad called upon for an expression of opinion, is especially earnest in his opposition to the scheme, it is to be expected that much of the burden of the controversy shall fall upon his shoulders. We fear that Mr. Dortch has failed to appreciate the longing of the people of Western North Carolina for some means of communication with the outer world, and that he is therefore doing injustice to his generous heart. He can stand at his window and see the iron lines of inter-communication stretching North, South, East and West. His knowledge of the political history of the State has told him that North Carolina has received and is receiving no appreciable return in dividends for her enormous expenditures in behalf of these railroads.

Again, he can see at a short distance from his home the recently completely colored Insane Asylum, for which the State has just paid thousands of dollars.

There is a lovely village nestled among our mountains, not far from Pigeon River, which derives its name from the same rugged revolutionary hero in whose honor Mr. Dortch's county is called—Wayne. It is proposed to build a railroad to the river, which will, by July, 1881, give to Waynesville its long promised railroad, and this without taxation by the State, or debt assumed by it. Not only this, but by so doing the burden of at least $170,000 of taxation is lifted from the shoulders of the tax-payers.

The people of Western North Carolina are not simple folk, needing Eastern guardians to keep them from being swindled by Northern adventurers. They are earnest and practically unanimous in their approval of the proposition to sell the Western N. C. Railroad. They do not fear that the Ducktown line will be abandoned by the purchasers, nor will they grieve if it shall be developed that they are upon the line of the Southern Pacific Railroad.

Waynesville asks Wayne for justice.

THE UNSOLVED PROBLEM.

The problem which greatly exhausts the patience of those who are unwittingly lending their efforts to retard the prosperity and lay burdens upon the tax-payers of North Carolina, is an easy one to state. Its solution, alas! has never been satisfactorily accomplished, and a veritable *ignis fa tuus* of a 13, 15, 14, we fear it will forever elude the grasp of legislative statesmen.

How can a representative body indulge at the same time in the luxury of increased appropriations and diminished taxation? How can disbursements be made to exceed receipts without causing a deficit?

These gentlemen who are so fearful of sacrificing the State's interest in the Western North Carolina Railroad that they will not consent to a sale which will not only relieve the State at once from $170,000 of taxation, at the lowest estimate, but will also cause the speedy completion of our railroad system, offer us nothing tangible in the way of relief.

What shall we do if we do not sell?

The interest on the $850,000 of bonds, $59,500 we are obliged to keep on paying; the $41,000 for the support of the convicts now at work on the Western North Carolina Railroad we are also obliged to pay. Even if we stop the appropriation of $70,000 for the purchase of iron, and allow the terminus of the railroad to remain at Gudger's Ford, the deficit can not be less than $90,000. What do you propose to do about it? Will you increase the tax levy? Hardly. No one of you is bold enough to propose that we should increase the burden of taxation and yet stop the building of the railroad.

Shall we sell the States interest in the North Carolina Railroad and the Atlantic & North Carolina Railroad and pay the deficit in that way? Our able contemporary, the *Observer*, has so riddled the bill for the sale of these railroads, which are subject to liens of over six million of dollars, that we think even its fond parent will never seek to patch it into presentable shape again.

Do you think that the sum necessary for the support of the convicts can be diminished by hiring out the convicts on other public or private works?

Who wants them at a price which will make it renumerative to hire them? With the exception of the Oxford & Henderson Railroad, and the University Railroad, no one has made application for convicts.

The work upon one of the railroads will soon be over, and upon the other will scarcely last during the year.

Perhaps it was unwise in the light of present events to make an appropriation for the building of a Colored Insane Asylum at Goldsboro, which has caused no inconsiderable part ($20,000) of the deficit. We do not say that it was, but we fear that some of our friends in the West may so regard it, if their hope of railroad communication is to be so long deferred, if not forever laid at rest.

We are offered relief from $170,000 appropriations, which will make good the deficit in the Treasury: we are offered an opportunity to have the railroad completed both to Paint Rock and Ducktown, we are offered the investment of capital from other States to build up North Carolina.

Gentlemen of the General Assembly, what are you going to do about it?

THE DANGER.

We believe it is conceded, or if not conceded, it is certainly true, that a decided majority of the members of both Houses of the General Assembly are in favor of the sale of the Western North Carolina Railroad. The tactics of the opposition will be the same that have been used since the beginning of representative government. Those who are opposed to the bill will seek to defeat it by amending its essential features to such an extent that the purchasers will decline to buy. This danger will be guarded against. A more serious difficulty will be found in the amendments offered by the friends of the measure, who desire some feature of the proposed trade altered.

It is certainly true that the bill could be amended in many respects to make the sale more advantageous to the State; the only trouble is that the purchasers will not buy if it is so altered.

We should prefer that the amount paid to the State for the past labor of the convicts should be in money and not in bonds, but the purchasers, needing the money for the actual work upon the railroad, will only give the mortgage bonds. The members of the Legislature may be sure that in the various negotiations which took place before the last offer, and especially in the conference between Messrs. Davis and Ruffin upon the part of the State, and Mr. Best and his attorney upon the part of the purchasers, the very best terms which the State could obtain were inserted in the bill. Is it best for the State to accept this offer or not?

We will return to this subject hereafter.

MAJOR RENO has refused to accept the option given him by the President of resigning in order to escape the sentence of the court-martial which cashiered him, upon the ground that if he did so he would be accepting the justice of the verdict against him. The President, declining to modify or mitigate the sentence, as urged by Major Reno's friends, has finally dismissed Reno from the service.

It comes to light now that the pilot of the steamer *Montana* was below and asleep when that vessel stranded a few days ago in the Irish channel. The narrow escape from an awful calamity made imminent by the paralysis of the pilot on a New York ferry boat, while crossing North river some time since, has led to having two pilots constantly on duty in that service now. The loss of the *Montana* ought to lead to a similar precaution of sea-going vessels, especially when they are in what are known to be dangerous localities.

THE Wilmington *Star*, which has assumed to take its contemporaries to task for not publishing arguments against the sale of the Western North Carolina Railroad is handsomely rebuked by the *Robesonian*, as will be seen in another column. It now says of the important message of the Governor of North Carolina and the bill prepared in part by the favorite statesman of the Cape Fear:

"The *Star* will not cumber its columns with the new bill or the message."

Simple Rules for Calculating Interest.

For finding the interest on any principal for any number of days, the answer in each case being in cents, seperate the two right hand figures to express it in dollars and cents:

Four per cent.—Multiply the principal by the numbers of days to run separate the right hand figure from the product, and devide by 9.

Five per cent.—Multiply by number of days and devide by 72.

Six per cent.—Multiply by number of days; seperate right hand figure and devide by 6.

Eight per cent.—Multiply by number of days and devide by 45.

Nine per cent.—Multiply by number of days; separate right hand figure and divide by 4.

Ten per cent.—Multiply by number of days and divide by 36.

Twelve per cent.—Multiply by number of days; separate right hand figure and divide by 3.

Fifteen per cent.—Multiply by number of days; separate right hand figure and divide by 2.

Twenty per cent.—Multiply by number of days and divide by 18.

BLOOD AND SKIN HUMORS,

The Scourge of Mankind. Old Methods of Treatment and Remedies a Failure.

CUTICURA RESOLVENT, the Great Blood Purifier and Liver Stimulant, is the most searching, cleansing, and purifying agent of this country. It may be detected in the saliva, sweat, milk, blood, and urine in forty minutes after taking the first dose, showing that it has entered the circulation and been carried to every part of the system. It forever eradicates the virus of Syphilis, Scrofula, Cancer, and Canker, those terrible blood poisons that rot out the machinery of life, filling the body with foul corruptions. Taken internally in conjunction with the external application of CUTICURA, the Great Skin Cure, it speedily cures Scrofulous Ulcers and Old Sores, Salt Rheum, Psoriasis, Tetter, Ringworm, Scald Head, Dandruff, and all itching and Scaly Diseases of the Skin and Scalp.

ECZEMA ON THE SCALP.

BREAST AND LIMBS CURED.

Messrs WEEKS & POTTER: Gnelemen—I cannot refrain from adding my debt of gratitude to you for having placed within my reach the wonderful CUTICURA REMEDIES, which have rendered unnecessary all further experiment of physicians, and in a remarkably short space of time have rid me of a loathsome disease. I dispensed with all physicians two years ago, believing they did me no good. The CUTICURA has stopped this unsatisfactory expense—even if it were necessary and I had the courage any longer to follow their advice—and brought the long-looked-for cure and happiness.

I have been afflicted with Eczema or Salt Rheum on my scalp, breast, and limbs for five years, during which time I have been under the treatment of physicians, or at mineral springs, or taking some kind of medicine. I have been treated by Drs —— of ——, Dr. —— of ——, and visited sulphur springs and taken numbers of patent medicines, all without the faintest approach to a cure.

April 1st last, I began the use of CUTICURA, which was immediately successful in my case, entirely curing me. I have not had a clean scalp for 15 years until the use of CUTICURA entirely healed it and left it clean and healthy. The other parts of my body were affected in a more aggravated form, but are now completely healed. I believe myself completely cured. I shall continue the CUTICURA RESOLVENT as directed, for its wonderful action on the stomach and bowels and cooling influence on the blood. It will afford me pleasure, as I have done in many cases, to urge the afflicted to use these wonderful remedies.

Yours, etc.,
STEPHEN CROWELL.
NEW BEDFORD, Sept. 30, 1878.

MESSRS. WEEKS & POTTER:—Some three or four weeks ago I ordered a box of CUTICURA for a bad case of Salt Rheum. The back of one of my wife's hands was a running sore. In one week from the day it arrived her hand was well and has remained so up to to-day. E. P. DAGGETT.

in a 3 story brick building, 28x40 feet. Two Wheat Mills and one Corn Mill, new and complete with a capacity for grinding 100 bushels of wheat and 100 bushels of corn a day, and can compete in quality of flour with any mills in the State. Attached to the engine is also a 60 Saw Corron GIN and power press, at a safe distance (about 100 feet) in a different lot. The engine has a brick smoke-stack 60 feet high, making the danger from fire the least possible and the rate of insurance very low.

—Go to-night and see the little folks at Tucker Hall, in their charades, tableaux, etc. It is the last chance you will have of seeing them.

Lecture.

A lecture was delivered last night at the Church of the Good Shepherd, on the "Rise and Progress of the Church of England."

The Standard Dictionary.

Worcester's Dictionaries have been adopted by the State Board of Education for use in the common schools, and, as a means of introduction, Messrs. Alfred Williams & Co. will supply members of the Legislature with a copy of "Worcester's Unabridged Dictionary" (price $10.00) for $8.00 net.

The Baptist Festival.

The Festival, given under the auspices of the Salisbury street Baptist church, at Tucker Hall last night, was well attended. Everything passed off delightfully and all who attended had a good time. The entertainment will be continued over to-night. By all means go.

The Charter of Raleigh.

By reference to our Legislative Report, it will be seen that a bill was yesterday introduced in the House to amend the charter of this city, so as to change the wards and provide for the election of the Mayor by the popular vote. It is a Republican trick to try and get control of the city government.

Judge Merrimon's Speech.

Judge Merrimon addressed the committee and members of the Legislature on the question of the sale of the Western North Carolina Railroad in the hall of the House of Representatives last night. A goodly number of spectators were present. Judge Merrimon opposes the sale and made an extended speech in sustaining his position. We have not the space this morning to go into an extended notice.

Police Court.

His Honor Mayor Manly had George Adams and John Dow, both colored, before him yesterday, upon the charge of larceny. It seems they have had their hands sticking to cotton that somehow had gotten out of the bales stored at the cotton yard. A bond was required of them, but their monied friends not being on hand they were committed to jail in default thereof.

Three drunks were given twelve hours each in the station house.

District Convention.

On Wednesday, the 16th day of June, 1880, in the city of Raleigh, a Convention of the Democratic-Conservative party in the Fourth Congressional District will be held for the purpose of nominating their candidates for Congress and for Presidential Elector, and appointing two delegates to attend the Democratic National Convention.

By order of the Executive Committee of the Fourth Congressional District.

H. A. LONDON, JR., Chairman.

Democratic papers of the District please copy.

Meeting of the Executive Committee of the N. C. Agricultural Society.

The Executive Committee of the N. C. Agricultural Society held their regular meeting last night at the Yarboro House, James Norwood, Esq., Chairman *pro tem*, and C. B. Denson, Secretary.

The report of the committee on Premium List was presented in full, and after appropriate discussion, was referred to the next meeting for final action.

The Secretary gave encouraging accounts of the progress of the work for the Twentieth Annual State Fair, October 18th, 19th, 20th, 21st, 22d and 23d, next.

The Secretary was requested to correspond with manufacturers of fertilizers used in the State, in the interests of the Society.

Several communications were appropriately referred, the consideration of the Premium List having occupied the time.

The Secretary will be pleased to receive any suggestions for the improvement of the List of Premiums, for the information of the committee.

Thrown from his Buggy.

Mr. J. N. Bunting's horse ran away with him Wednesday, throwing Mr. B. from the buggy and injuring him considerably in the way of bruises, etc., not seriously, however.

Some Still Left.

Denis Kearney seems to stand some chance of testing, in his own person, the fact that there is still some law left in California. He has been arrested on his own sand lots, has been tried and convicted of infamous language and assault, and has been sentenced to six months imprisonment in the House of Correction. He has appealed from the sentence, but the appeal will probably be refused. Mr. Kearney, in fact stands a good chance of bidding a long adieu to the sand lots and doing the State some service. He he will probably learn at last how to do good, honest work—something he does not seem to be altogether familiar with. After such a continued experience in "agitating," a change of this sort ought to give him a pleasing sense of variety. Kearney is probably pretty near the end of his noisy and mischievous career. A few days since, when frightened at the prospect of imprisonment, he informed his followers that the Citizens' Protective Union was intended to ameliorate the condition of the workingmen and restore prosperity. This may be true enough, as it was organized against Kearneyism, and if the workingmen accept the idea, the turbulence and disorder which exist in San Francisco will soon disappear.

Supreme Court.

Court opened at 10 o'clock Wednesday morning. All the Justices were present.

The consideration of appeals set for hearing at the end of the docket was resumed, and causes were disposed of as follows:

Who Is Mrs. Winslow?

As this question is frequently asked, we will simply say that she is a lady who for upwards of thirty years has untiringly devoted her time and talents as far as a female Physician and nurse, principally among children. She has especially studied the constitution and wants of this numerous class, and, as a result of this effort, and practical knowledge obtained in a lifetime spent as nurse and physician, she has compounded a Soothing Syrup, for children teething. It operates like magic—giving rest and health, and is moreover sure to regulate the bowels. In consequence of this article, Mrs. Winslow is becoming world-renowned as a benefactor of her race; children certainly do RISE UP and bless her; especially is this the case in this city. Vast quantities of the Soothing Syrup are *daily* sold and used here. We think Mrs. Winslow has immortalized her name by this invaluable article, and we sincerely believe thousands of children have been saved from an early grave by its timely use, and that millions yet unborn will share its benefits, and unite in calling her blessed. No mother has discharged her duty to her suffering little one, in our opinion, until she has given it the benefit of Mrs. Winslow's Soothing Syrup. Try it, mothers—try it now.—*Ladies' Visitor*, New York City. Sold by all druggists. 25 cents a bottle.

CONGRESS YESTERDAY.

THE SENATE ADJOURNS AFTER A SHORT SESSION.

$6,655,000 for the Payment of Army and Navy Pensions---More about Deputy Marshals.

SENATE.

WASHINGTON, D. C., March 18.—Senator Kirkwood submitted a resolution instructing the committee on Post Offices and Post Roads to inquire and report what is the power of the Postmaster General under the existing laws as to modifying the mail contracts, expediting the time of trips, of increasing the number of trips, of establishing the postoffices, and fixing the compensation for services, etc. Adopted.

The Senate proceeded to consider the Calendar—Bill, authorizing and directing the Secretary of the Navy to introduce cotton cordage into the naval service, was again considered.

Senator Vance advocated it as an encouraging and important American industry.

Senator Conkling objected to making the departments the agents for experiment as to the utility of inventions. His amendment was striking out the word "directing," which was rejected

Senator Vance moved to amend the bill so as to read: "That the Secretary of the Navy be authorized and directed to introduce into the naval service the rope and cordage manufactured of cotton, according to the recent methods, to such an extent as will furnish a fair test of the value and efficiency thereof, as compared with the kinds now in use."

The amendment was agreed to, and the bill was read the third time and passed.

The Senate committee on Commerce to-day decided to report adversely on the nomination of A. C. Wells, to be Surveyor of the port of New Orleans.

At the expiration of the morning hour the Senate proceeded to consider the House bill for the establishment of titles in Hot Springs, Ark., the question being on a substitue reported by the Senate committee on Public Lands.

This substitute provides for an appeal in the contested cases to a court of claims issued of the Circuit Court, and reduces the assessment of commissioners by fifty per cent.

After a long debate the Senate adjourned without action on the bill.

HOUSE.

Johnson, of Virginia, introduced a bill authorizing the United States Commercial Company, of Virginia, to do business in foreign countries. Referred.

The Speaker laid before the House a communication from the Secretary of the Navy, in response to the resolution calling for all information in his department, not heretofore published, touching the inter-Oceanic Canal. Referred.

The House then went into Committee of the Whole on the Special Deficiency bill.

Reagan withdrew his amendment offered yesterday.

The amendment of McMahon's, appropriating $6,655,000 for the payment of the army and navy pensions, was agreed to by yeas 137, nays 18.

The question then recurred on the amendment submitted by the Appropriations Committee, appropriating $900,000 for the payment of marshals and deputy marshals.

The amenement offered by Hiscock, extending an appropriation to the payment of special deputy marshals, was voted down, by yeas 105, nays 124.

Springer, under direction of the committee on Elections, offered an amendment appropriating $7,600 for special deputy marshals, with the proviso that hereafter the general and special deputy marshals shall be appointed by the Judge of the U. S. Circuit Court in the district where such officers are to serve. There shall not be more than three or less than two in number for each voting precinct, and shall be of different political parties, able to read and write, and well known residents of the political precinct where they are to perform their duties, and shall receive $2 per day as full compensation for their services at any election.

Garfield offered as a substitute for Springer's amendment an amendment increasing the pay of the general and special deputy marshals to $5 per day, and striking out so much of Springer's amendment as restricts the number of such officers; prescribes that they shall belong to different political parties, be of good character, &c.

Cox, of New York, said he was opposed to any recognition of the special deputy marshals or of Federal supervision over elections. "For one," he said, "I will not place the Supreme Court, as now packed, partizan, and demoralized, above the popular branch of legislature of the country." [Applause on the Democratic side].

After some further debate Simonton, of Tennessee, moved to amend Garfield's substitute so as to leave it in the exact form of Springer's amendment, with the exception of the exclusion from its provisions of the general deputy marshals. This amendment was agreed to by yeas 117, nays 114.

Springer then moved to amend, by including the general deputy marshals.

Pending further action of the committee the House adjourned.

Charles S. Prentice, of Toledo, O., went to Paris and thence to England to be treated for Bright's disease, and after the best physicians of both countries had done what they could for him, gave up in despair and returned to America to die. Here he received further treatment from other skillful physicians without benefit, and while "listlessly lingering in pain and anguish," he says, heard of the Safe Kidney and Liver Cure, took it, and was completely cured in a few weeks. He gives circumstantial details of his painful experience.

Hop Bitters, which are advertised in our columns, are a sure cure for ague, billiousness and kidney complaints. Those who use them they cannot be too highly recommended. Those afflicted should give them a fair trial, and will become thereby enthusiastic in the praise of their curative qualities.—*Portland Ad.*
